

Inheriting the good quality of Yutong products and the commitment to the brand, ZK6100NGA9 is safe, reliable and durable with attractive appearance and comfortable interiors. The unique tinned copper wires have good antioxidant and flame resistant capability with double service life, effectively reducing the fire risk. The unique AMP waterproof connectors and imported relays enhance the reliability of products. The cathodic electrocoating process improves the anti-corrosion performance of vehicles that reaches two times of that treated by the conventional anti-corrosion process. ZK6100NGA9's good performance makes it more adapted to the hot climate in Africa and the Middle East, which is your optimal choice.
