TOURIST COACHES VERSION OF V7

SENSATIONAL ! YUTONG V7 IS LAUNCHED!

After 28-month design and engineering,
Through a number of reliability tests,
Featuring a new business look and comfortable interiors,
V7 boasts higher practicability, reliability and fuel efficiency,
Which are superior the counterparts !

V7

TOURIST COACHES VERSION OF V7

V7

BIG ROOM BIG BOOM

As a preferred product for tourist coaches, Yutong V7 is more adapted to passengers' needs and habits which boasts not only stylish appearance and voluminous space, but also good ride comfort and profitability. With the thermal management technology of engine, the fuel consumption is greatly reduced. Optimized interiors and control panel effectively improve the space utilization and number of passengers, thus achieving a perfect combination of safety, reliability, ride comfort and energy efficiency.

V7 will provide you with a relaxing trip all the way.

TOURIST COACHES VERSION OF V7

TASTEFUL APPEARANCE MAKES NEW CLASSIC

With excellent design of the appearance, Yutong V7 has an inherent tasteful style and makes a new classic.

- The combination of LED daytime running lights and front fog lamp can reduce accidents by 12.4%.
- Along with the panoramic windscreen and multi-bar rearview mirrors, the driving safety is greatly improved.
- Integral large side windows offer you excellent visibility.
- Separated rear lamps facilitate the repair and maintenance, and save the maintenance costs as well.

TOURIST COACHES VERSION OF V7

ENJOY A PLEASANT TRIP IN VOLUMINOUS SPACE

Yutong V7 perfectly combines the practicability with the comfort. Through the ergonomics research, Yutong set up multiple models in term of ride comfort, visual field, legroom, chest space, manipulation and so on from the perspective of drivers and passengers so as to improve the ride and driving experience and make every trip a joyful one.

TOURIST COACHES VERSION OF V7

ERGONOMIC MANIPULATION

The ergonomic layout of driving area provides drivers with an easy and relaxed control of the vehicle. Multi-functional manipulation zone and the intelligent control panel make the driving much smarter.

- Separated control area for driver
- Sufficient and rational storage space
- Sedan-style four-spoke steering wheel
- Multi-functional intelligent control panel

TOURIST COACHES VERSION OF V7

- Safe structure: the annular frame member ensures a safer travel and minor injury amid accidents.
- The powertrains of internationally renowned brands are widely recognized and verified.
- Optional ZF gearbox boasts higher reliability.
- Optional disc brake featuring excellent brake and heat dissipation capability as well as low failure rate can increase the service life by 60%.

SAFE AND RELIABLE

Yutong V7 brings the safety and reliability to a higher level. It adopts the sophisticated powertrain technology and offers high-end optional parts to ensure the long-time operating of the vehicles. Yutong not only improves its own R&D capability to develop bus technology, but also actively introduces a number of advanced technologies. Through repeated research and testing, the maintenance costs and failure rates are reduced, enabling you to increase your operating benefits.

TOURIST COACHES VERSION OF V7

IMPROVED FUEL ECONOMY

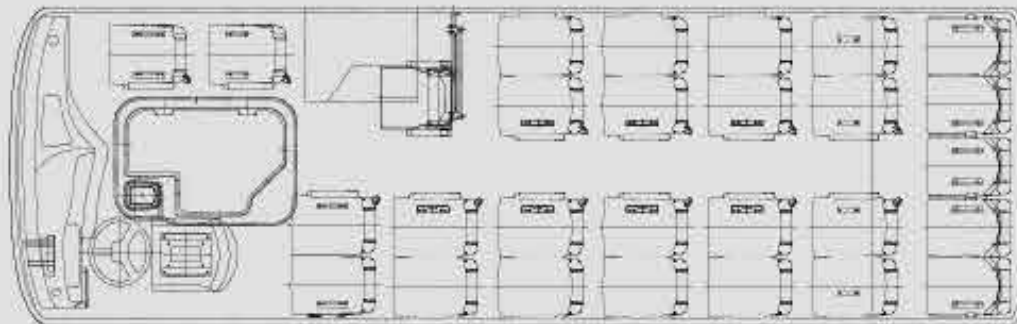

With the engine thermal management technology, the temperature of the engine coolant can be precisely controlled at about 90°C in any operating condition, which is the optimal temperature for engines. Meanwhile, it enables the engine fan to run at desirable speed, thus prolonging the service life of engine and reducing the emissions.

- More rational power matching: the powerful engine, multi-speed transmission and final drive adapting to various road conditions can achieve lower fuel consumption.
- Optional engine thermal management system can save the fuel by 5-10%.

SPECIFICATION - YUTONG V7 (COACH VERSION)

Item	Standard	Optional
