

10M HIGH CAPACITY FLAGSHIP BATTERY ELECTRIC BUS

YUTONG U10

Exterior

Black curved outline, Busworld award winning styling to make the vehicle a beautiful craftwork wherever it goes.

Large passenger capacity

Articulated front and rear body, the interior layout is also optimized to increase the space utilization rate and realize a maximum passenger capacity of 81.

A CAPABLE PRODUCT, A TRUSTWORTHY COMPANION

Yutong 10m battery electric articulated bus is engineered for the needs of large passenger transportation. The bus is known for its superior safety and super-economical operation and maintenance.

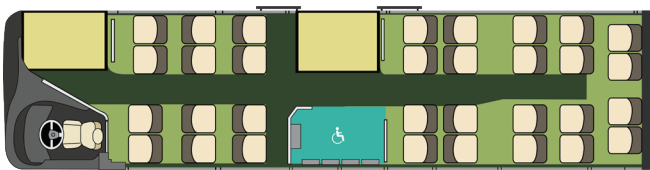

Superior safety

The bus is under the protection of Yutong YESS+YEA safety control strategy. Nitrogen protection, battery liquid thermal system and 24H battery monitoring system come as standard for ensuring safety to the utmost extent.

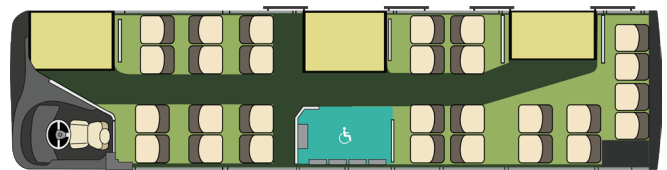

Super-economical operation and maintenance

Thanks to the smart energy-saving technology in the industry, the vehicle can intelligently adjust energy recovery. As a result, kinetic energy utilization rate is doubled to help the vehicle realize a driving range of over 500km.
